

James Hannon

Dublin, Ireland

EDUCATION

University College Dublin

PhD Candidate in Foundations of Data Science

2021-2025

- **Funding:** Science Foundation of Ireland Centre for Research Training
- **Languages:** C
- **Thesis Title:** Statistical Models for Improved Insurance Pricing and Risk Assessment Using Telematics and Wearables Data

Imperial College London

Masters of Sciences in Statistics (Data Science)

2020-2021

- **Grade:** Distinction
- **Relevant Coursework:** Probability Theory, Statistical Inference, Computational Statistics, Applied Statistics, Data Science, Machine Learning, Bayesian Methods, Simulation Methods, Deep Learning with Tensor Flow, Big Data (MapReduce and Hadoop)
- **Research Project:** Hierarchical Glicko-2 for Doubles Tennis
- **Languages:** Scala

University College Dublin

Bachelor of Sciences in Financial Mathematics

2016-2020

- **Grade:** First Class Honours
- **Relevant Coursework:** Statistical Machine Learning, Time Series, Game Theory, Probability Theory, Survival Models, Monte Carlo Inference, Stochastic Models, Predictive Analytics, Bayesian Analysis
- **Languages:** Python, VBA, R

Colaiste Mhuire, Ballymote, Co.Sligo

2010-2016

Leaving Certificate

- **Grade:** 535 Points

WORK EXPERIENCE

PwC

Data Analytics, Consulting internship

June 2019 – July 2019

- Consulted a large Irish commercial bank on analysing data on non-performing loans.
- Identified customers most at risk of entering default and presented findings to bank officials.
- Collaborated with a team of interns on an innovation challenge to improve the future of the world of work for PwC staff.

Paddy Power

Risk and Trading Operative

October 2017 – September 2020

- Created customer profiles to predict positive/negative expected earnings from their bets.
- Managed risk by analysing market prices and event liabilities.
- Compiled odds for upcoming sports events.
- Traded live games using trading models. Sports traded include NBA, NFL, NHL and MLB.

OTHER EXPERIENCE

Citadel & Citadel Securities 2023 Europe Regional Datathon

1st Place

April 2023

- Analysed data sets pertaining to crime and crashes in Philadelphia.
- Performed clustering analysis to find districts with similar crime and crash statistics.
- Compared clustered districts with police districts and stations to find areas that were over/underserved.
